

Action plan based on the student feedback received in the 2nd semester of the 2020/21 academic year

Department: Department of Genetics, Cell- and Immunobiology

Faculty: EPh

Subject: Biology II.

Our feedback on general comments by the students:

The feedback results for Biology II subjects (lecture and practice) are slightly higher however not significantly than the faculty average. This results better than last year, so our students appear to have been more satisfied with the organization of our practice course.

Answer:

Thank you for appreciating our efforts during the previous semester. We will continue to strive for interest in the subject, to enjoy the Biology II classes. We will continue to provide all the ppt presentations and also the video records of the lectures available online to facilitate the learning process at home.

Our feedback on specific comments on mandatory subjects Biology II:

This year the only comment that arrived: „Thank you for all. „

Therefore, we also thank you for all the student who attended our course and completed the form. We kindly ask you to write more comments and recommendation to help our improvement in the future.

Our feedback on specific comments on elective subjects:

2021.09.29.
